- **Performance statistics, data metrics and real-time graphs**

- **Store weight and dimensioning data**

- **Industry leading API integration**

- **Optimise cargo and warehouse space***

- **Optical Character Recognition (OCR)***

- **Free high quality 12MP camera***

*available with Pro version

Resolution Plus takes your dimensioning to the next level, increasing efficiency and profitability in your warehouse.

Having access to unlimited remote support will help you to make the most of our Resolution dimensioning machine, whilst also enjoying other benefits such as the ability to share dimensioning data and images via a link or export file.

Unlimited remote support
Unlimited remote support for your Resolution dimensioner means that we're here to help solve any issues you experience, giving you peace of mind that you've got the support you need, should you experience any down time.

Store weight and dimension data
Store all of your weight and dimensioning data in the cloud with Resolution Plus. Your stored data is readily accessible, allowing you to share data with third parties by simply sharing a link or exporting to Excel.
Industry-leading API
Integrate with warehouse management systems such as ShipStation and ShipHero. Dimensioning data, images and useful information obtained from shipping labels is fed to Resolution Plus via a simple-to-use API.

Designed for warehouse operations
Cargo space is directly related to revenue in logistics operations. Use Resolution Plus to optimise space in your trucks or containers and collect more revenue. Push your images to Resolution Plus and automate data capture and collection.*

Optical Character Recognition (OCR)
Extract valuable information such as recipient name and address from your shipping label without hassle, this is then stored and accessible within Resolution Plus.*

Free high quality 12MP camera
A high quality camera that will read and extract information such as names and addresses from labels, which is then fed to Resolution Plus ready to be viewed and shared. *

Optimise your cargo space

By integrating Resolution Plus with popular warehouse management systems such as ShipStation, ShipHero and Microsoft Dynamics 365, you'll be able to organise your cargo and shipping space more accurately. Once dimensioning data is collected using Resolution dimensioners, Resolution plus will organise how you can best fill your shipping space, reducing wasted space.

Available with every new purchase of a Resolution Dimensioner*, Resolution+ is a monthly subscription that provides incredible on-going benefits including cloud storage of results and images, unlimited remote support and statistics/ performance metrics.

Plans
